

CRYSTAL COMFORT

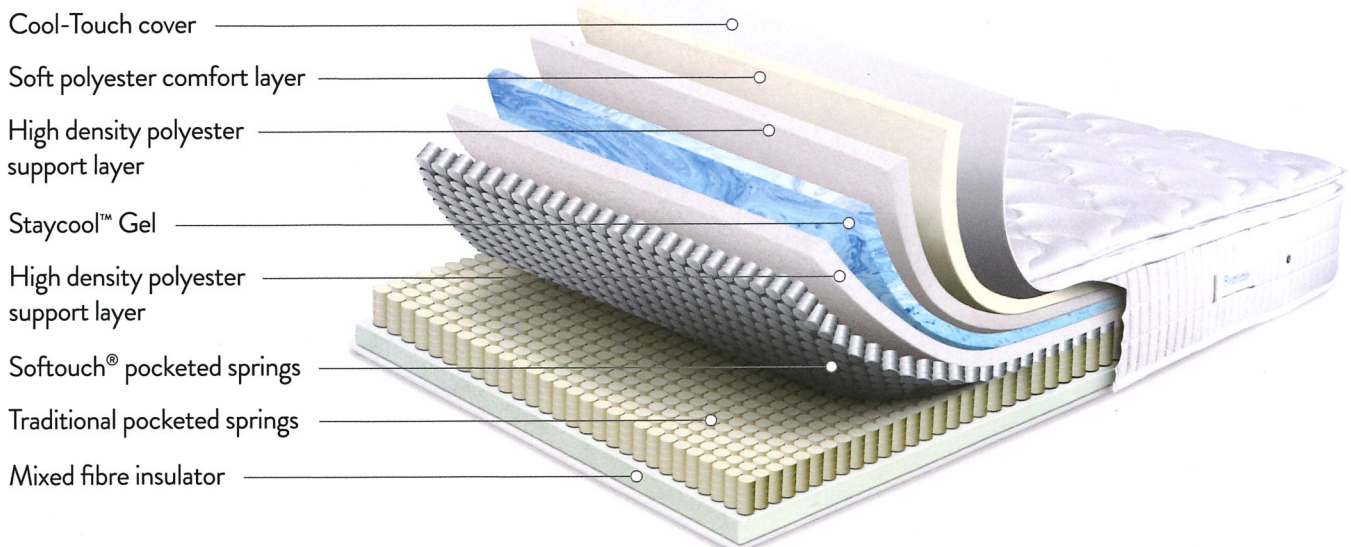

Staycool™ Gel technology

KEY FEATURES & BENEFITS

1800 Softouch® pocketed springs in the 150cm (king size) mattress	Unique Softouch® springs that move independently, contouring to your individual weight and shape for optimum support and posture.
Non turn, easy care mattress	There's no need to turn the mattress over – just rotate head to foot, every month to ensure longevity and continued comfort.
Cool-Touch surface	Unique Cool-Touch mattress sleeping surface designed and proven to reduce your body temperature, keeping you cooler during the night.
High density polyester	Providing added comfort with excellent recovery and rebound properties to give enhanced support.
Staycool™ Gel	Provides pressure sensitive support that immediately responds to your body shape and helping regulate body temperature.
Quilted knitted cover	A soft, sumptuous finish that gives enhanced comfort and a truly luxurious feel.
Chrome vents	Promotes breathability allowing cool, fresh air to flow through the entire mattress.
Flag-stitched handles	Flag-stitching gives ultimate strength to each of the handles, making it easier to rotate or move the mattress when required.

The Crystal Comfort features a unique mattress sleeping surface which gives a cool to the touch feel and is designed to keep you cooler during the night for an undisturbed night's sleep.

EXTRAS: Please see details of our divan base options and headboards.
